What is your ultimate PC build?

I would like you to produce your ultimate PC build, but there are a few requirements:

- Your ultimate PC build needs to have a theme; the theme can be based off of any game in the current UK top ten.
- You must choose all your components for the PC and fill in the table below.
- You must add images of the components.
- You need to not just include components inside the system but all of the peripherals too.
- You need to spend over £3000.
- Your PC needs to be able to run the follow games:
    - The Witcher 3: Wild Hunt
    - Ghostrunner
    - Control
    - Microsoft Flight Simulator
    - Monster Hunter World

To get some inspiration watch the following video.
