

Mathematics Teacher

37 hours per week, permanent

Ref: 21.46

1. The Appointment

ABOUT THE ROLE

This is a great opportunity for a dynamic individual qualified to teach mathematics to join a forward-thinking College to teach, challenge, support and coach learners studying the GCSE Mathematics course.

You will need to possess a teaching qualification and have a good knowledge and teaching expertise of mathematics. You will have excellent interpersonal and communication skills and demonstrate evidence of working flexibly, collaboratively and effectively to enable learners to excel.

It is essential that you have the ability to build productive relationships, display excellent communication, organisational and administrative skills and demonstrate a flexible and learner-centred approach. You must be able to evidence good understanding of the craft of teaching and coaching and what approaches secure outstanding outcomes for learners.

You will be a highly self-motivated, energetic and driven individual, encompassing a strong sense of autonomy. You will possess excellent communication, teaching and coaching skills and be able to demonstrate proven and positive impact on learners' outcomes.

The role will require you to embed the college's values, **Respect, Integrity, Collaboration, High Expectations, Responsibility**.

2. The Post

2.1 Main Duties and Responsibilities

- a) Under the direction of the Head of Mathematics to design, plan, teach and coach mathematics students through classroom teaching and/or intervention (1-1 and group activities). Ensure a high-quality learning experience is taught that enables learners to make swift, good progress. To implement approaches and techniques that are bespoke to the needs of students. To work collaboratively including the sharing of resources with mathematics colleagues to secure excellent outcomes for learners.
- b) To assess learners accordingly to agreed assessment stipulation. To attend team meetings to review learners' progress, agree specific teaching approaches, plan specific interventions and the impact of these actions with the intention to ensure all learners excel.
- c) Set and monitor targets with learners to consistently support their progress and achievement of at least their minimum target grade. To help ensure learners make positive transitions to positive destinations when leaving their courses.
- d) To help develop and share best practice in teaching, learning and assessment and secure a high-quality learning experience for learners.

- e) To effectively monitor the progress, attendance, retention and achievement of learners on a continuous basis, ensuring that all appropriate monitoring and tracking documentation is fully documented and readily available and in line with College procedures.
- f) To keep up to date with current teaching and coaching practice, resources and developments within mathematics and further education.
- g) To help implement the College's quality improvement processes, contribute to evaluative quality assurance reviews and the self-assessment process and subsequent planning.
- h) To complete relevant documentation including agreed, appropriate records of learners' performance and administration associated with role and responsibilities.

To set high expectations of learners and maintain appropriate standards of learner behaviour and their attitudes to work including the setting of and review of independent work outside the classroom.

2.2 Other Responsibilities

- a) To uphold and promote College policies and procedures, promoting those specifically applicable to this area of work, including the Equality & Diversity and Health & Safety policies and procedures and attend training as requested.
- b) To comply with the college's own safeguarding policy and practices and attend training as requested.
- c) To keep up to date, so far as necessary, for the efficient executing of the job, with new legislation, procedures and techniques and attend relevant mandatory training.
- d) To be conversant with and participate in activities and developments at college, regional and national level which are relevant to the post.
- e) To present and promote an appropriate public image in representing the college.
- f) To undertake any other duties as may reasonably be required commensurate with the post.

3. Skills, Qualities & Knowledge

	Essential	Desirable
