

Dear Friend

When I first started at West Notts College I joined without any of my friends which I worried about initially.

However when I did my induction day, straight away I made loads of new friends and I just felt like this course was definitely for me.

The teachers make the course fun and enjoyable which is the main thing you want during your education as you learn more without even knowing.

The teachers are very friendly and are always there for you and push you so you can get the best grade possible.

If you are into make-up and want this as your future career you will really love this course and find it very interesting.

Yours sincerely

Amber Jacobs
