

Dear friend!

Hi, my name is Georgia and I'm almost at the end of my two-year public services course and would like to share with you some of my memorable moments whilst being at West Nottinghamshire College and tell you about some of my achievements whilst being a student here.

Throughout my course I have to admit I have been on a bit of an emotional roller-coaster from the transition from school to college, leaving friends and meeting new ones, and taking on new challenges and having new expectations of my own.

I've taken every opportunity that has been offered to me by the college from taking part in a Royal Marines fitness session, going to help at police role play assessments, orienteering, rock climbing, reading a poem to the college on remembrance day, visiting HMS Prince of Wales in Liverpool and carrying out a security guard course work placements in a Danish college.

All of these experiences have enabled me to develop myself as a person and gain confidence as well as develop my ability to carry out public speaking, become more independent, connect with new friends, and have lots of determination.

I believe the skills I've learnt whilst being at the college will benefit me within my next step into either becoming a medic in the Royal Air Force or becoming a police officer.

Yours sincerely

Georgia Geere
