

Dear new student

As a student of West Notts College, I would highly recommend giving this college some consideration. As a student from Bermuda, the college was a lot bigger than what we had in Bermuda and it was a big change, but with the help of support staff I found my way around college pretty easily.

Personally, I think the two days we had in college, where we just did activities, really helped me find people to be around and get along with. So, the tutors are to thank for this.

Throughout this college year the assignments I had were made very clear and understandable. The staff always seem motivated and committed to maintaining the college every day and It's nice to know that the place where I go to educate myself is safe and well represented.

Yours sincerely

Josh
