

Dear new barbering student, my name is Nikita Wigham and I was a student at West Notts College two years ago studying Level 2 barbering.

I really enjoyed my time at college and felt supported to push myself and build my confidence with a range of different services.

I managed to get work experience in a barber shop which really helped build my confidence and skills. I didn't let my time at college go to waste I continued with barbering and I love it, I learnt a lot from the staff and I'm very thankful for the time and effort they put in and as much as I found this course challenging at times my tutor was one of my inspirations that kept me going and reassured me that I would get there in the end!

If you are thinking of a career in barbering don't hesitate to apply, this is a great skill to have and you can take this anywhere.

Good luck!

Nikita.
