

It took me around five years to make the decision to change my career because, I hated my job and the fact that I'm coming from another country didn't help either.

When I applied for the beauty course at West Notts College everything seemed quite overwhelming but when we started the course everything fell into place because everyone is so nice and professional, especially the teachers as they always had so much patience with us. The group was mainly 16-years-old students and I was the oldest one and English is my second language but I never felt different.

The teachers always managed to bring positivity into the class and helped us to go further. The best thing I felt is that they really wanted us to get a good grade at the end of the year and they would do everything they could to help us to achieve that. So thank you for that West Notts College and I can't wait to come back for the next course!
