

Dear applicant

When initially enrolling to study business at West Notts College, I was unsure where to go in life, but with the support of the tutors, it was made it easy.

With Drew, Kim and Alex, I enhanced my skillset which paved out my career path. I developed transferable skills but I also developed skills and attributes to help me later on in life. These being people skills, resilience and the ability to be innovative and open-minded.

The tutors on this course taught me there is no limit, if you work for it, you will get it. From completing this diploma and having outstanding support from the tutors, I have reached my goals. But I wouldn't be here without the college and the support from the tutors. The opportunities we received as students were surprising, I didn't expect this from the course, the tutors really go above and beyond for all and they always get the best from you.

Thanks to West Notts for pushing me in the right direction, but more importantly, thanks to Drew, Kim and Alex for teaching me that anything is possible when you put your mind to it. I couldn't recommend this college and course enough.

Yasmin Knowles
